

# Puff

## Modular Compressed Sofa

### PRODUCT DESCRIPTIONS

The Puff Collection is a boxy sofa integrated with new smart foam technology, offering the perfect balance of plush and bounce. Its premium fabric selections feels luxurious to the touch, while the innovative construction ensures both durability and effortless maintenance. The tufted detailing adds a layer of sophistication, making it as stylish as it is comfortable.

What started as a design solution for a multifamily presentation center has now become the **ultimate low-profile**, modular sofa built for modern living. When searching for the perfect boxy sofa, we realized that existing options were either too bulky or lacked the right proportions to fit seamlessly into any space. So, we created our own.
